Dreamland's Origins

The Dreamland Chronicles, an all-ages, award winning fantasy web comic series with nearly 1800 pages, now enters its 21st of 22 slated chapters. Since 2006, *The Dreamland Chronicles'* creator Scott Christian has created a world with Elves, Knights, Dwarves, Fairies, Giants, Dragons, and so much more. Brought to vivid life by combining cutting-edge computer-generated animation technology and traditional comic book storytelling techniques, *The Dreamland Chronicles* presents an exciting and unique adventure story unlike anything found online or in print. Over 30 million readers have discovered the sags inspired Sava's favorite childhood movie and book memories such as "The Princess Bride", "The NeverEnding Story", "Clash of the Titans", "The Hobbit", "The Narnia Chronicles" and "The Princess of Mars".
